PROXY STATEMENT

dated April 1, 2010

For the Annual Meeting of Shareholders
to be held May 4, 2010

Introduction

Use of Terms

In this proxy statement, "we," "us," "our," the "Company" and "Macatawa" refer to Macatawa Bank Corporation, the "Bank" refers to Macatawa Bank, and "you" and "your" refer to each shareholder of Macatawa Bank Corporation.

Questions and Answers about the Proxy Materials and Our 2010 Annual Meeting

Q. Why am I receiving these materials?

A. The Company's Board of Directors is providing these proxy materials to you in connection with its solicitation of proxies for use at the Macatawa Bank Corporation 2010 annual meeting of shareholders. The meeting will take place on Tuesday, May 4, 2010, at 10:00 a.m., local time, at The Pinnacle Center, 3330 Highland Drive, Hudsonville, Michigan 49426. You are invited to attend the meeting and are requested to vote on the proposal described in this proxy statement.

Q. What information is contained in these materials?

A. The information included in this proxy statement discusses the proposal to be voted on at the meeting, the voting process, the compensation of our directors and named executive officers, and certain other required information. Your proxy, which you may use to vote on the proposals described in this proxy statement, is also enclosed.

Q. When did the Company begin sending and delivering this proxy statement to shareholders?

A. We began sending and delivering this proxy statement to our shareholders on approximately April 1, 2010.

Q. What proposals will be voted on at the annual meeting?

A. The only proposal to be voted on at the annual meeting is the election of one director for a term of three years.

In addition, any other business that properly comes before the meeting will be considered and voted on. As of the date of this proxy statement, we are not aware of any other matters to be considered and voted on at the meeting. If any other matters are presented, the persons named as proxies on the enclosed proxy will have discretionary authority to vote for you on those matters.

Q. How does the Company's Board of Directors recommend that I vote?

A. Your Board of Directors recommends that you vote FOR election of the nominee named in this proxy statement.

Q. *Who may vote?*

A. You may vote at the annual meeting if you were a shareholder of record of Macatawa common stock at the close of business on March 11, 2010. Each shareholder is entitled to one vote per share of Macatawa common stock on each matter presented for a shareholder vote at the meeting. As of March 11, 2010, there were 17,697,878 shares of Macatawa common stock outstanding.

Q. *How do I vote?*

A. If you properly sign and return the enclosed proxy, the shares represented by that proxy will be voted at the annual meeting and at any adjournment of the meeting. If you specify a choice on the proxy, your shares will be voted as specified. If you do not specify a choice, your shares will be voted for election of the nominee named in this proxy statement. If any other matter comes before the meeting, your shares will be voted in the discretion of the persons named as proxies on the proxy.

Q. *How do I vote if I hold my shares in "street name"?*

A. If you hold your shares in "street name," which means that your shares are registered in the name of a bank, broker or other nominee (which we collectively refer to as your "broker"), your broker must vote your street name shares in the manner you direct if you provide your broker with proper and timely voting instructions. Please use the voting forms and instructions provided by your broker or its agent. These forms and instructions typically permit you to give voting instructions by telephone or Internet if you wish. If you are a street name holder and want to change your vote, you must contact your broker. Please note that you may not vote shares held in street name in person at the annual meeting unless you request and receive a valid proxy from your broker.

Q. *Does my broker have discretionary authority to vote my shares?*

A. If you do not provide your broker with voting instructions, then your broker has discretionary authority to vote your shares on certain "routine" matters. However, because of a recent rule change, your broker no longer has discretionary authority to vote your shares in the election of directors. **It is important that you promptly provide your broker with voting instructions if you want your shares voted in the election of the nominee for director.**

Q. *What are broker non-votes and what effect do they have on the voting on the proposals?*

A. Generally, broker non-votes occur when shares held by a broker in street name for a beneficial owner are not voted with respect to a particular proposal because the broker has not received voting instructions from the beneficial owner and the broker lacks discretionary voting power to vote those shares.

Q. *Can I change my mind after I return my proxy?*

A. Yes. You may revoke your proxy at any time before it is voted at the meeting by doing any of the following three things:

- by delivering written notice of revocation to Macatawa's Secretary, Jon W. Swets, at 10753 Macatawa Drive, Holland, Michigan 49424;
- by delivering a proxy bearing a later date than the proxy that you wish to revoke; or

- by attending the meeting and voting in person.

Merely attending the meeting will not, by itself, revoke your proxy. Your last valid vote that we receive before or at the annual meeting is the vote that we will count.

Q. What is the quorum requirement for the annual meeting?

A. To conduct business at the annual meeting, a quorum of shareholders must be present. The presence in person or by properly executed proxy of the holders of a majority of all issued and outstanding shares of Macatawa common stock entitled to vote at the meeting is necessary for a quorum. To determine whether a quorum is present, we will include shares that are present or represented by proxy, including abstentions and shares represented by a broker non-vote on any matter. Although broker non-votes count for quorum purposes, we do not count them as votes for or against any proposal.

Q. May the annual meeting be adjourned?

A. Yes. The shareholders present at the meeting, in person or by proxy, may, by a majority vote, adjourn the meeting despite the absence of a quorum. If a quorum is not present at the meeting, we expect to adjourn the meeting to solicit additional proxies.

Q. What vote is necessary to approve the proposals?

A. *Election of Directors.* A plurality of the shares voting is required to elect directors. This means that, if there are more nominees than positions to be filled, the nominees who receive the most votes will be elected to the open director positions. Abstentions, broker non-votes and other shares that are not voted in person or by proxy will not be included in the vote count to determine if a plurality of shares voted in favor of the nominee.

Required Vote for Other Matters. We do not know of any other matters to be presented at the meeting. Generally, any other proposal to be voted on at the meeting would be approved if a majority of the shares that are voted on the proposal at the meeting are voted in favor of the proposal. Abstentions, broker non-votes and other shares that are not voted on the proposal in person or by proxy would not be included in the vote count to determine if a majority of shares voted in favor of each proposal.

Q. What does it mean if I receive more than one proxy or voting instruction card?

A. It means your shares are registered differently or are in more than one account. Please provide voting instructions for all proxies and voting instruction cards you receive.

Q. Where can I find the voting results of the annual meeting?

A. We will announce preliminary voting results at the annual meeting and publish final results in our current report on Form 8-K that will be filed with the Securities and Exchange Commission within four business days after the date of the annual meeting.

Compensation Committee

The Compensation Committee is responsible for evaluating the Company's overall compensation structure and programs. This includes conducting reviews of the Company's general executive compensation policies and establishing, implementing and monitoring the administration of the compensation program in accordance with the Company's compensation strategy. - annually review and make recommendations to the Board with respect to the independence of all directors as required by the Company's governing documents, Board requirements, and the requirements of NASDAQ and the Securities and Exchange Commission.

Each member of the Nominating Committee is independent, as that term is defined in Rule 5605(a)(2) and IM-5605-7 of the NASDAQ Stock Market Rules.

The Company encourages members of its Board of Directors to attend the annual meeting of shareholders. All directors serving at April 23, 2009 attended the Company's 2009 annual meeting held on that date.

The Company's independent directors meet periodically in executive sessions without any management directors in attendance. If the Board of Directors convenes a special meeting, the independent directors may hold an executive session if the circumstances warrant.

After full consideration, the shareholder proponent will be notified of the decision concerning each nominee.

The Company's Articles of Incorporation contain certain procedural requirements applicable to shareholder nominations of directors. Shareholders may nominate a person to serve as a director if they provide written notice to the Company not later than sixty nor more than ninety days prior to the first anniversary date of the preceding year's annual meeting. The notice must include (1) the name and address of the shareholder who intends to make the nomination and of the person or persons nominated, (2) a representation that the shareholder is a current record holder and will continue to hold those shares through the date of the meeting and intends to appear in person or by proxy at the meeting, (3) a description of all arrangements between the shareholder and each nominee, (4) the information regarding each nominee as would be required to be included in a proxy statement filed under Regulation 14A of the Securities Exchange Act of 1934 had the nominee been nominated by the Board of Directors, and (5) the consent of each nominee to serve as a director.

The Board of Directors has not rejected any director candidate put forward by a shareholder or group of shareholders that beneficially own more than 5% of the Company's Common Stock for at least one year at the time of the recommendation.

The Board of Directors and Nominating Committee does not currently use the services of any third party search firm to assist in the identification or evaluation of board member candidates. However, the Nominating Committee has the authority to use such a firm in the future if it deems necessary or appropriate. The Nominating Committee considers candidates based on their experience and expertise as well as demographics to appropriately reflect the diversity and makeup of our community and shareholders.

Leadership Structure

During 2009, there were several changes in the Company's leadership structure. In early 2009, the Company accepted the resignation of Mr. Benj. Smith III and appointed Mr. Robert DenHerder as Chairman of the Board of the Company and the Bank and Mr. Ronald Haan and Mr. Philip Koning as Co-Chief Executive Officers of the Company and the Bank. In August 2009, Mr. Koning resigned from his positions as President and Co-Chief Executive Officer, Mr. Haan was appointed as interim Chief Executive Officer, and Mr. Koning was appointed as Executive Vice President. The Company accepted the resignation of Mr. Koning from the Board of Directors effective December 4, 2009. On October 29, 2009 the Board of Directors appointed Richard L. Postma as a Director and Chairman of the Board. The Nominating Committee continues to evaluate and recruit qualified candidates to serve on the Board of Directors.

Currently, the Company's Chairman of the Board and Chief Executive Officer are separate positions in recognition of the difference between the two roles. The Chairman of the Board leads the Board of directors in adopting an overall strategic plan for the Company, sets the agenda for the meetings of the Board of Directors, presides over all meetings of the Board of Directors, and provides guidance to the Chief Executive Officer. The Chief Executive Officer implements the strategic plan for the Company as adopted by the Board of Directors and leads the Company, its management and its employees on a day-to-day basis. Because of these differences, the Company currently believes keeping the Chairman of the Board and Chief Executive Officer as separate positions is the appropriate leadership structure for the Company.

Oversight of Risk Management

The Company is exposed to a variety of risks and undertakes at least annually an Enterprise Risk Management review to identify and evaluate these risks and to develop plans to manage them effectively. During 2009, the Bank's Enterprise Risk Management responsibilities were managed by the Chief Financial Officer, Chief Lending Officer and the Director of Risk Management.

On behalf of the Board of Directors, the Audit Committee plays a key role in the oversight of the Bank's risk management function. In that regard, the Chief Financial Officer, Chief Lending Officer and Director of Risk Management met with the Audit Committee on a quarterly basis to discuss the risks facing Macatawa, and highlighted any new risks that may have arisen since they last met. The Director of Risk Management also attended Board of Director meetings at least annually to apprise them directly of the Bank's Enterprise Risk Management efforts. The Chief Financial Officer and the Chief Lending Officer reported monthly to the Board of Directors.

In an effort to improve efficiencies within the Company and strengthen our Enterprise Risk Management program, as of December 15, 2009, the Director of Risk Management now meets monthly with the Audit Committee and attends all Board meetings to discuss the risks facing Macatawa. In fulfilling our risk management responsibilities, the Director of Risk Management works closely with members of senior management, including the President and Chief Executive Officer, Chief Financial Officer, Chief Lending Officer, Senior Retail Banking Officer, Chief Information Officer, Director of Human Resources, outside legal counsel, and others.

Another significant change to risk oversight during 2009 was the establishment of a Special Assets Group (SAG) in the second half of 2009. This group is headed by individuals with significant commercial lending and workout experience to monitor all adversely graded loans. This group reports directly to the Audit Committee. The Company has appointed the Director of Risk Management as the key individual within the Company responsible for independently managing the Risk Management process, with direct

functional and administrative reporting to the Audit Committee. The Loan Review function also reports functionally to Audit Committee and administratively to the Director of Risk Management.

Independent Auditors

The aggregate fees billed by Crowe Horwath LLP to Macatawa and its subsidiaries for 2009 and 2008 were as follows:

	<u>2009</u>	<u>2008</u>
Audit Fees(1)	\$ 215,950	\$ 227,125
Audit-Related Fees(2)	11,625	5,194
Tax Fees(3)	24,250	23,160
All Other Fees(4)	1,696	31,359

- (1) Audit services consist of the annual audit of the financial statements and internal control over financial reporting, reviews of quarterly reports on Form 10-Q, and related consultations.
- (2) Audit-related services consist principally of services related to accounting matters not arising as part of the audit.
- (3) Permissible tax services include tax compliance, tax planning and tax advice that do not impair the independence of the auditors and that are consistent with the SEC's rules on auditor independence. Tax compliance and preparation fees account for \$16,500 and \$15,800 of the total tax fees for 2009 and 2008, respectively.
- (4) Includes other permitted consulting services, including salary surveys in both 2009 and 2008 and also includes performance related counseling in 2008.

Audit Committee Approval Policies

The Audit Committee is responsible for appointing, compensating and overseeing the work of the independent auditors. The Audit Committee has established a policy regarding the pre-approval of all audit and non-audit services provided by the independent auditors. This policy requires the Audit Committee to give advance approval for specific projects and categories of services. The Audit Committee reviews these requests and advises management if the Audit Committee approves the engagement of the independent auditor. All services performed after the establishment of the policy have been pre-approved pursuant to the policy. None of the audit-related fees or tax fees were approved by the Audit Committee pursuant to the *de minimus* exception set forth in Section 10A(i)(1)(B) of the Securities Exchange Act of 1934.

Appointment of Independent Auditor

As of the date of this proxy statement, the Audit Committee had not yet appointed the Company's independent auditors for the year ending December 31, 2010. During late 2009, Macatawa commenced a comprehensive request for proposals process related to its determination of its independent auditors for the year ending December 31, 2010. This process continues and as a result, as of the date of this proxy statement, the Audit Committee had not completed the process of selecting independent auditors for the year ending December 31, 2010.

Crowe Horwath LLP served as the Company's independent auditors for the year ended December 31, 2009. Representatives of Crowe Horwath LLP are expected to be present at the annual meeting, will have the opportunity to make a statement if they desire to do so, and are expected to be available to respond to appropriate questions from shareholders.

Audit Committee Report

The Audit Committee has reviewed, and discussed with management and the independent auditors, the Company's audited financial statements for the year ended December 31, 2009, management's assessment of the effectiveness of the Company's internal controls over financial reporting, and the independent auditors' attestation report on the Company's internal controls over financial reporting. The Audit Committee has discussed with the independent auditors the matters required to be discussed by the Statement on Auditing Standards No. 61, as amended (AICPA, Professional Standards, Vol. 1 AU Section 380), as adopted by the Public Company Accounting Oversight Board in Rule 3200T. The Audit Committee has received the written disclosures and the letter from the independent auditors required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent auditor's communications with the Audit Committee concerning independence, and has discussed with the independent auditors the independent auditors' independence. This included consideration of the compatibility of non-audit services with the auditors' independence.

Based on the reviews and discussions referred to above, we recommended to the Board of Directors that the financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2009.

In issuing this report, we note that management is responsible for the Company's financial reporting process, including its systems of internal control, and for the preparation of financial statements in accordance with generally accepted accounting principles. The Company's independent auditors are responsible for auditing those financial statements. Our responsibility is to monitor and review these processes. It is not our duty or our responsibility to conduct auditing or accounting reviews or procedures, and therefore our discussions with management and the independent auditors do not assure that the financial statements are presented in accordance with generally accepted accounting principles. We have relied, without independent verification, on management's representation that the financial statements have been prepared in conformity with U.S. generally accepted accounting principles and on the representations of the independent auditors included in their report on the Company's financial statements.

Executive Compensation

Compensation Discussion and Analysis

Objective of the Company's Compensation Program

The Company strives to attract, motivate and retain high-quality executives by providing total compensation that is performance-based, reasonable and competitive with the labor market and industry in which the Company competes for talent. The Company provides incentives to advance the interests of shareholders and deliver levels of compensation that are commensurate with performance. Overall, the Company designs its compensation program to:

- Support the corporate business strategy and business plan by clearly communicating what is expected of executives with respect to goals and results and by rewarding achievement;
- Retain and recruit executive talent; and
- Create a strong performance alignment with shareholders.

The Company seeks to achieve these objectives through three key compensation elements:

- A base salary;
- A performance-based annual bonus (i.e. short-term incentives), which is paid in cash; and
- Periodic (generally annual) grants of long-term, equity based compensation (i.e. longer-term incentives), such as stock options or restricted stock, which may be subject to performance-based or time-based vesting requirements.

Competitive Considerations

In making compensation decisions with respect to each element of compensation, the Company considers the competitive market for executives and compensation provided by comparable companies. The Company regularly reviews the compensation practices at companies with which it competes for talent. Industry compensation information is obtained from the annual Michigan Bankers Association Compensation & Benefits Survey, Crowe Midwest Region Financial Industry Compensation Survey, and The Delves Group Bank Executive Compensation & Benefits Survey. These sources of information are broad-based compensation surveys prepared by third parties. The Company also engaged Blanchard Chase, an external executive compensation consulting firm, to provide the Company with updated relevant market data and to advise the Company of executive compensation trends within the industry. Blanchard Chase included the following companies in the market data provided to the Company: First Merchants Corp., Chemical Financial Corp., Integra Bank Corp., Independent Bank Corp., MainSource Financial Group, Lakeland Financial Corp., First Financial Corp., Mercantile Bank Corp., Citizens First Bancorp Inc., MBT Financial Corp., Firstbank Corp., Horizon Bancorp, German American Bancorp Inc., Dearborn Bancorp, and CFS Bancorp Inc.

The Company does not attempt to set each compensation element for each executive within a particular range related to levels provided by industry peers. Instead, the Committee uses market comparisons as one factor in making compensation decisions. Other factors considered when making individual executive compensation decisions include individual contribution and performance, reporting structure,

internal pay relationship, complexity and importance of role and responsibilities, leadership and growth potential.

Executive Compensation Practices

The Company's practices with respect to each of the three compensation elements identified above, as well as other elements of compensation, are set forth below, followed by a discussion of the specific factors considered in determining key elements of year 2009 compensation for the named executive officers. This information is intended to provide a background for the data included in the executive compensation tables that follow this section.

Base Salary

Purpose - The objective of the base salary is to reflect job responsibilities, value to the Company and individual performance with respect to market competitiveness.

Considerations - Base salaries are reviewed annually and are based on a variety of factors, including:

- The nature and responsibility of the position and, to the extent available, salary norms for persons in comparable positions at comparable companies;
- The expertise of the individual executive;
- The performance and potential of the individual executive;
- The competitiveness of the market for the executive's services; and
- The recommendations of the Chief Executive Officer (except in the case of his own compensation).

2009 Decisions - There were no changes made to the base salaries of Mr. Haan and Mr. Swets in 2009. Effective March 23, 2009, Mr. Pankratz's base salary was increased to \$180,000.00 in conjunction with his promotion to Chief Lending Officer.

Annual Bonus

Purpose - The compensation program provides for an annual bonus that is performance linked. The plan sets forth performance incentives that are payable if the annual performance objectives established by the Board of Directors is met or exceeded. The objective of the program is to compensate individuals based on the achievement of specific goals aligned with shareholder value, superior earnings growth and expense control.

Discretion - Under the bonus plan, the Company has discretion as to whether annual bonuses for the Company's named executive officers will be paid in cash, restricted stock, stock options or a combination thereof. Any restricted stock or stock options are granted under a long-term incentive plan approved by the shareholders of the Company. The Company also retains discretion, in appropriate circumstances, to grant a lower bonus or no bonus at all.

Considerations - The annual bonus process for named executive officers involves four basic steps pursuant to the Company's management incentive program:

- At the outset of the year:
 - (1) Set the overall Company performance goals for the year;
 - (2) Set individual performance measures for the year; and
 - (3) Set a target bonus for each individual.
- After the end of the year:
 - (4) Measure actual performance (individual and Company-wide) against the predetermined Company performance goals and individual performance measures to determine the appropriate adjustment to the target bonus, as well as other performance considerations related to unforeseen events during the year.

These four steps are described below:

- **Setting Company performance goals** - At the end of each year, the Company sets performance goals for the Company for the following year. In determining the extent to which pre-set performance goals are met for a given period, the Company exercises its judgment whether to reflect or exclude the impact of changes in accounting principles and extraordinary, unusual or infrequently occurring events reported in the Company's public filings.
- **Setting individual performance measures** - As it sets Company-wide performance goals, the Company also sets individual performance measures for each named executive officer. These measures allow the Company to play a more proactive role in identifying performance objectives beyond purely financial measures, including for example, exceptional performance of each individual's functional responsibilities as well as leadership, collaboration, growth initiatives and other activities that are critical to driving long-term value for shareholders.
- **Setting the target bonus** - The Company establishes a target bonus amount for each named executive officer, based on a percentage of base salary. The target bonus takes into account all factors that the Company deems relevant, including (but not limited to) a review of peer group compensation both within the financial services industry and the Company's assessment of the aggressiveness of the level of growth and performance reflected in the Company's strategic plan. For each of the performance goals, there is a formula that establishes a payout range around the target bonus allocation. Under the program, payments could range from 0% to 50% of the Chief Executive Officer and President's base salary, 0% and 35% of the Senior Vice President and Chief Financial Officer's base salary, and 0% and 25% of the Vice President and Chief Lending Officer's base salary. However, the total bonus pool was limited to a percentage of the actual net income that exceeded the budgeted net income.
- **Measuring performance** - The Company reviews actual performance against each of the performance goals established at the outset of the year to make its bonus assessment after the end of the year. This includes an analysis of the executive officer's performance to any extra-ordinary events or transactions.

2009 Decisions - At the end of 2008, the Company determined that based on many factors, including the state of the local economy and the resulting anticipated elevated level of loan losses and writedowns on nonperforming assets that no bonus targets would be established. As a result, no bonuses were awarded for 2009 performance.

Long-Term Incentive Compensation

Purpose - The long-term incentive program provides a periodic award (typically annual) that is performance based. The objective of the program is to align compensation for named executive officers over a multi-year period directly with the interests of shareholders of the Company by motivating and rewarding creation and preservation of long-term shareholder value. The level of long-term incentive compensation is determined based on an evaluation of competitive factors in conjunction with total compensation provided to named executive officers and the goals of the compensation program described above.

Consideration - The Company's long-term incentive compensation generally takes the form of a mix of stock option and restricted stock awards. These two vehicles reward shareholder value creation in slightly different ways. Stock options (which have exercise prices equal to the market price at the date of grant) reward named executive officers only if the stock price increases. Restricted stock is impacted by all stock price changes, so the value to named executive officers is affected by both increases and decreases in stock price. The Company adjusts the mix of award types as part of the long-term incentive award. Awards are generally made near the end of each calendar year. In determining the annual grants of stock options and restricted stock, the Company considers market data on total compensation packages, the value of long-term incentive grants, total shareholder return, and, except in the case of the Chief Executive Officer, the recommendations of the Chief Executive Officer.

Stock Options - The long-term incentive program calls for stock options to be granted with an exercise price equal to the fair market value of the Company's stock on the date of grant. Generally, the stock options vest 100% after three years, based on continued employment. The Company defines fair market value as the end of the day price on the date of grant. The Company uses the end of day price to simplify reporting. The Company will not grant stock options with exercise prices below the market price of the Company's stock on the date of grant (determined as described above), and will not reduce the exercise price of options (except in connection with adjustments to reflect recapitalizations, stock or extraordinary dividends, stock splits, mergers, spin-offs and similar events permitted by the relevant plan) without shareholder approval. New options grants to named executives typically have a term of ten years.

Restricted Stock - Restricted stock granted as long-term compensation to named executive officers generally vest 100% after three years. Holders of restricted stock have the right to receive dividends with respect to such restricted stock awards to the extent dividends are paid generally on the common stock.

2009 Decisions - Given the financial performance of the Company during 2009, the Compensation Committee determined that there would be no long-term compensation awards of stock options or restricted stock grants during 2009.

Periodic Review

The Company intends to review both the annual bonus program and the long-term incentive program annually to ensure that their key elements continue to meet the objectives described above.

Other Benefits

The Company offers other components of compensation that are generally provided to other employees and are important to attracting and retaining highly qualified personnel. Named executive officers are eligible to participate in group health and life insurance benefits, supplemental unemployment benefits and the Company 401(k) plan.

Perquisites

Perquisites that the Company makes available to named executive officers are limited to a few benefits not generally available to all of our employees. These include term life insurance premiums paid by the Company for the benefit of the named executive officers, an automobile allowance for the President and Chief Executive Officer, and local country club memberships for use in connection with Company business.

Total Compensation

In making decisions with respect to any element of a named executive officer's compensation, the Company considers the total compensation that may be awarded to the officer, including salary, annual bonus and long-term compensation. The Company's goal is to award compensation that is reasonable when all elements of potential compensation are considered.

Summary Compensation Table

The following table shows certain information concerning the compensation earned by each person who served as Chief Executive Officer during the most recently completed year and the Company's two most highly compensated executive officers, other than Chief Executive Officer, during the year ended December 31, 2009 (the officers identified in the table below are referred to in this proxy statement as the "named executive officers").

The Company sponsors a 401(k) plan which covers substantially all employees. Employees may elect to contribute to the plan up to the maximum percentage of compensation and dollar amount subject to statutory limitations. During 2009, the Company made matching contributions equal to 100% of the first 3% of employee contributions and 50% of employee contributions in excess of 3%, up to 6%.

The information above under the heading "Summary Compensation Table" with respect to the agreements with Messrs. Koning and Smith is here incorporated by reference.

Compensation of Directors

During 2009, the non-employee directors of the Company received an annual retainer of \$14,000, and were paid \$1,200 per board meeting attended and \$550 for committee meetings attended. Non-employee directors of the Bank received \$8,000 for an annual retainer, \$800 per board meeting attended and \$550 per committee meeting attended. Other than Mr. Smith, employee directors did not receive compensation for their service as a director during 2009.

On December 17, 2009, the Board of Directors adopted changes to the fee structure for non-employee directors of the Company and the Bank. The changes are expected to result in a material reduction in total fees paid. Employee directors are not entitled to compensation for their service as a director. A summary of the new fee structure follows:

New Director Fee Structure for the Company

- Annual cash retainer of \$5,000 (reduced from \$14,000).
- Per meeting fee of \$750.
- Audit Committee annual fee of \$2,000 (instead of per meeting fee).
- Compensation Committee per meeting fee of \$450.
- Nominating Committee per meeting fee of \$450.

New Director Fee Structure for the Bank

- Annual cash retainer of \$10,000 (up from \$7,000).
- Per meeting fee of \$750.
- Loan Committee annual fee of \$3,000 (instead of per meeting fee).
- Trust Committee annual fee of \$1,000 (instead of per meeting fee).

The change in the Board of Directors fee structure corresponds to the ongoing expense reduction initiatives of the Company and the Bank. The anticipated annual cost savings to the Company and the Bank for 2010 are estimated to total approximately \$250,000, assuming the same number of meetings and directors as in 2009.

The Company's Chairman of the Board, Mr. Richard L. Postma, does not accept compensation of any kind for his service as a director or as Chairman of the Board.

The following table sets forth the compensation paid to Company directors for services rendered during 2009.

Thomas Boylan and Benj. A. Smith III. Transactions with Related Persons

Directors, officers, principal shareholders and their associates and family members were customers of, and had transactions (including loans and loan commitments) with, the Bank in the ordinary course of business during 2009 and 2008. All such loans and commitments were made in the ordinary course of business, on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with persons not related to the lender and did not involve more than a normal risk of collectibility or present other unfavorable features. Similar transactions may be expected to take place in the ordinary course of business in the future. None of these loan relationships presently in effect are in default as of the date of this proxy statement.

The Audit Committee Charter requires the Audit Committee to review and approve all transactions between the Company and parties who are related to the Company to the extent required under applicable laws and rules of NASDAQ. During this review, the Audit Committee ensures that each transaction is made on terms comparable to those that could be obtained in arm's length dealing with an unrelated third party and that the transaction is approved by disinterested directors.

On November 5, 2008, the Company entered into a Board Representation Agreement with White Bay Capital, LLC, a Michigan limited liability company. On November 5, 2008, White Bay Capital purchased 20,000 shares of Series A Preferred Stock. Under the Board Representation Agreement, the Corporation agreed to take all necessary action to cause one person designated by White Bay Capital to be elected to the Company's Board of Directors for so long as White Bay Capital continues to own shares of preferred and common stock that represent at least 3.0% of the outstanding voting shares of capital stock of the Company. Mr. Mark Bugge is the director designated by White Bay Capital. The transactions with White Bay Capital were approved by the Company's Board of Directors. At the time of the transactions, White Bay Capital and Mr. Bugge were not related parties.

In November and December 2008, the Company sold a total of 31,290 shares of Series A Preferred Stock to investors for a total sale price of \$31.29 million. The investors included four directors of the Corporation who purchased shares of Series A Preferred Stock on the same price and terms as the other investors. The total investment by directors was \$5.09 million of which Mr. Boylan purchased 500 shares, Mr. DenHerder purchased 1,000 shares, Mr. Koetje purchased 2,000 shares and Mr. Smith purchased 1,590 shares. The sale of Series A Preferred Stock and the price and terms of the transaction were approved by the Board of Directors including the affirmative vote of each of those directors who did not participate in the offering of Series A Preferred Stock.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires Macatawa's directors and officers and persons who beneficially own more than 10% of the outstanding shares of Macatawa common stock to file reports of ownership and changes in ownership of shares of common stock with the SEC. Directors, officers and greater than 10% beneficial owners are required by SEC regulations to furnish Macatawa with copies of all Section 16(a) reports they file with the SEC. Based solely on our review of the copies of such reports received by us, or written representations from certain reporting persons that no reports on Form 5 were required for those persons for 2009, we believe that there have been no failures to timely file required reports by our directors and officers.

Shareholder Proposals

Solicitation of Proxies

We will initially solicit proxies by mail. In addition, directors, officers and associates of Macatawa and its subsidiaries may solicit proxies by telephone or facsimile or in person without additional compensation. Proxies may be solicited by nominees and other fiduciaries who may mail materials to or otherwise communicate with the beneficial owners of shares held by them. We will bear all costs of the preparation and solicitation of proxies, including the charges and expenses of brokerage firms, banks, trustees or other nominees for forwarding proxy material to beneficial owners. We have engaged Georgeson, Inc. to assist with the solicitation of proxies for a fee not to exceed \$6,500, plus reimbursement for out-of-pocket expenses.
